Adnan Ali Ba Osman

Karnataka, India   •   7760150373   •   baosman735@gmail.com

MY PROFILE

"I am a passionate and dedicated Front-end UI/Web Developer with 3+ years of expertise, driven by a genuine love for what I do."
I have a proven track record in designing and developing visually stunning, responsive web interfaces using React JS, JavaScript, HTML, CSS, and Bootstrap. My experience also includes building and customizing WordPress sites, focusing on creating seamless, optimized user experiences. I am committed to continuous learning and staying current with the latest web technologies.

MY WORK EXPERIENCE

Associate Front-end Developer, 07/2020 - 10/2023

Miraki Technologies - Hyderabad

Roles and Responsibilities:
- **Demonstrated Experience (3 Years and 4 Months):** Proven track record in creating and implementing impactful UI developments, ensuring optimal user experiences.
- **Technical Proficiency:** Skilled in coding, troubleshooting, and analyzing websites. Committed to staying updated with UI development trends and employing current design strategies.
- **Project Management Skills:** Adept at managing multiple milestones and projects, developing concepts to enhance user experience, and ensuring intuitive interactions for customers.
- **Collaborative Approach:** Worked with back-end developers, copywriters, and graphic artists to improve website usability and integrate visual elements seamlessly.
- **Client Interaction:** Participated in meetings with clients to discuss and align on design preferences and requirements.
- **Design and Aesthetics:** Designed layouts and graphics to enhance the aesthetics and appearance of websites.
- **Data Management:** Implemented effective backup strategies to prevent data loss.

MY PROJECTS

Food Bazaar : (*Personal Project*)
- Created a dynamic food delivery application clone using Swiggy's live APIs to showcase real-time restaurant listings and menus.
- Leveraged React JS and Redux for efficient state management, enhancing the user experience with smooth data handling and interactions.
- Employed Tailwind CSS to design a responsive and visually appealing interface.
- Features include an intuitive menu display and a functional shopping cart system.

IGBC Website: (https://igbc.in/)
- Spearheaded the design and development efforts for the IGBC website, taking a hands-on approach to guide a junior team member in frontend development.
- Ensured a seamless user experience by implementing design strategies and adhering to IGBC's branding guidelines.

TECHNICAL SKILLS

Frameworks/Libraries:
- React JS
- Redux
- Bootstrap
- Tailwind CSS
